

CONNECT WITH RELIABILITY

RoHS Certificate of Compliance

Dear Customers,

This document certifies that Quatech Products comply with the European Union Restriction of the Use of Certain Hazardous Substances in Electrical and Electronic Equipment ("RoHS") Directive (2002/95/EC).

The RoHS directive prohibits the sale of electronic equipment containing certain hazardous substances such as lead, cadmium, mercury, hexavalent chromium, polybrominated biphenyls ("PBB") and polybrominated diphenylethers ("PBDE") in the European Union.

With a thorough control procedure in place, Quatech's RoHS Program ensures that our products satisfy the requirements as specified by the RoHS Directive with respect to the various categories of electronic products.

Information regarding Quatech's RoHS Compliance Statement and our transition to providing lead-free products, including RoHS product status and schedule for all product lines, is available on Quatech's Web site at:

<http://www.quatech.com/general/rohs.php>

The following link will help you identify Quatech's RoHS Compliant Products by the visual markings and/or labels.

http://www.quatech.com/general/rohs_product_id.php

Note that the Airborne™ 802.11b products that are RoHS compliant will have a "-G" suffix appended to the Quatech part number. All Airborne 802.11g products are RoHS compliant.
