**FOR IMMEDIATE RELEASE**

## **QUATECH ANNOUNCES WINDOWS 7 SUPPORT FOR PRODUCTS**

**Device connectivity and networking product lines are now Microsoft Windows 7 compatible**

**Hudson, OH, January 12<sup>th</sup>, 2010** – [Quatech Inc.](#), a division of DPAC Technologies Corp. (OTCBB: [DPAC](#)) and a leader in 802.11 wireless machine-to-machine (M2M) networking solutions, announces their device networking and connectivity products lines including Wired/802.11 Ethernet to Serial device servers and 802.11 Industrial Ethernet Bridges to be compatible with Microsoft's Windows 7 operating system. Quatech's Windows 7 [product software drivers](#) are now available to download thru the company's website.

Quatech continues to be the industry leader producing quality device networking and connectivity products, and also keeping up-to-date with the latest technology trends, including operating system platform compatibility.

Products that are Windows 7 operating system compatible include:

- [Serial Device Servers](#) – Network enable serial devices with wired and/or secure 802.11 wireless serial device servers featuring WPA2 support and extended high temperature operating ratings.
- [Wireless Industrial Ethernet Bridges](#) – High temperature rated 802.11 Ethernet Bridges create a reliable connection between an 802.11b/g wireless LAN and a device with a standard Ethernet port. The Bridge transparently conveys data between a device with a 10/100 Ethernet interface.
- [ExpressCard Adapters](#) – Serial and Parallel port expansion for mobile connectivity on Laptops with ExpressCard slot technology.
- [PCMCIA Serial Cards](#) – PCMCIA Mobile/Laptop connectivity with serial and parallel expansion cards.
- [PCI and UPCI Serial Boards](#) – Windows 7 compliant board-level, seamless system expansion serial boards for PCI and Universal PCI boards
- [USB 2.0 Serial Adapters](#) – High speed USB to Serial connectivity serial adapter line ([embedded](#) and [external](#)) compatibility with Windows 7 systems will be completed by mid Q1, 2010.

Quatech continues to upgrade and enhance other products to be compatible with Windows 7 and looks to be fully compliant by the end of Q1, 2010.

###

### **About Quatech**

Quatech enables reliable machine-to-machine (M2M) communications via secure 802.11 wireless or traditional wired networks with industrial grade embedded radios, modules, boards and external device servers. For local and mobile connections, Quatech serial adapters provide device connectivity and port expansion via any interface option. Satisfied customers rely on our unique combination of performance and support to improve bottom line performance through the highest application quality and lower total cost of ownership (TCO). Quatech markets its products through a global network of distributors, resellers, systems integrators and original equipment manufacturers (OEMs). Founded in 1983, Quatech is headquartered in Hudson, Ohio, and merged with DPAC Technologies Corp. (OTCBB: DPAC) in February 2006. [www.quatech.com](http://www.quatech.com).

### **Forward-Looking Statements**

This press release includes forward-looking statements. You can identify these statements by their forward-looking words such as "may," "will," "expect," "anticipate," "believe," "guidance," "estimate," "intend," "predict," and "continue" or similar words or any connection with any discussion of future events or circumstances or of management's current estimates or beliefs. Forward-looking statements are subject to risks and uncertainties, and therefore results may differ materially from those set forth in those statements. More information about the risks and challenges faced by DPAC Technologies Corp. is contained in the Securities and Exchange Commission filings made by the Company on Form S-4, 10-K, 10-Q and 8-K. DPAC Technologies Corp. specifically disclaims any obligation to update or revise any forward-looking statements whether as a result of new information, future developments or otherwise.
